You will have to fight your way through the malicious forces that want to defeat the living; the forces of darkness. Gameplay Crips Vampires revolves around a mix of action and stealth. As the name implies, the game is all about fighting Crips and vampires. You'll have to guide the path of Crips and their vamp lords with your combat skills. Though your character's weapons will be the main weapons you'll use to combat your foes, you'll have other weapons at your disposal. In combat, all it takes is a slice of a key or your bare hands to dispatch the enemies. The good news is that just like you'd expect, all of your enemies will have to be dispatched by firearms.
